The troublou mes his people had passed through had awakened them to some degree of politica anowledge. The King abused them and lled them, and when the people tried to righ the'r wrongs, foreign arms held the dirty King in place. During his reign, which continued till 1833, Ferdinandtook unto his boson several wives whom he abused, and by whom e had no children. His last consort, howver, the infamous Christina, of Naples, bore two daughters which were supposed to have een begot by the King, who died before the eldest girl was three years of age.

I'rior to this melancholy event, about the year 1820, the opponents of the existing conitutional government gathered round Dor Carlos, the brother of Ferdinand, as it was upposed that the king, was effete. But the birth of the princess, put to flight their expectations, as the Salic law of male succe ion to the throne was reveked. THE NEW STEAMER BENJ. J. ADAMS .- Capt J. B. Ford's new boat, built expressly for the Louisville and New Orleans trade, is just completed-ascended the falls yesterday, and is now lying at the foot of Third street, receiving freight, and will leave for New Orleans this evening. The Adams was built at New Albany, and her builders can boast of turning off one of the best and neatest looking boats that ever turned a wheel at the New Albany wharf. The hull was built by Mr. Wm. Jones. It is stannohly built, of very easy model, sits on the water very gracefully, and will, no doubt. prove herself a clipper. Dimensions-length of keel, 247 feet; depth of hold, 7 feet; width of beam, 86 feet; floor timbers, 4 by 9 inches: plank, 31 inches in thickness. Her engines were put upby l'eter Tellon. Iler cylinders are 25 inches in diameter, with 4 feet stroke, with 4 boilers, 28 feet in length, and 42 inches in diameter-4 flews in each. She works a 32 foot wheel, with 12 feet buckets. The copper work was done by H. N. Devol; the sheet iron work by Thos. Cox. The cabin, which is high and well ventilated, and one of the neatest on the river, was constructed by Mears. lloward & Cash. Mr. L. Berry done the painting, and P. J. Creedon the gilding. The cabin is of spotless white, tipped with gold, which gives it a very fine appearance. The cabiu is furnished with the most gorgeous and costly furni. ture. The piano, which is very fine, was furnished by Tripp & Cragg

The most noticeable feature in the ladies' cabin is a large and magnificent mirror, fifty by seventy inches. The furniture was furnished by Scott & Brinly. The curpets, laces, curtains and upholstery, were furnished by the well-known house of Marshall & Dickinson, of this city. In the rear of the cabin is a fine promenade, under which is the nursery, fitted up in very nice style, with rooms for a number of servants and children, and furnished with nacy. every convenience. On the ou er guard, adjoining the nursery, is an apparatus for supplying the state-rooms with hot or cold water; this is another very valuable improvement Her state-rooms, forty-six in number, are fur nished with every convenience for comfort James Brooks & Co. furnished the chandeliers queensware, silver, britannia and glass ware We noticed a new feature in the way of a silver tea set, intended for state rooms, should persons be sick; we believe it is an entirely new feature. The Adams, from stem to stern, from keel to pilot-house, is a perfect model of a boat, and reflects great credit on the build-

The Adams will leave for New Orleans, from city wharf, at four o'clock this evening, in command of Captain G. W. Triplett, formerly of the Memphis Mail Line, and will prove as popular and successful in the New Orleans trade as he was in the Memphis line, and by his energy, industry and urbanity of manners will make the Adams one of the most popular as in Hamlet, he stands alone and it pproach boats on the Ohio or Mississippi rivers.

Mr. Lou. Beeler, who is very favorably known on the river as an energetic business man, has charge of the office. Mr. B. is a gentleman of courteous and affable manners, ing and laughter of certain young gentlement as certainly, deprived others of the enjoyment

FURTHER DETAILS! THE PLATFORM DEATH OF GOVERNOR ROBIN.

Mr. Colfax stated that he would call up the sill when the House was full.

The House then went into Committee of the Whole on the State of the Union.

mum, but gives specific duvice for our country staples and leaving for lurther legislation any extension of the system.

Mr. Corwin, in reply to Mr. Elliott's allusion to him, says that he did not agree to all the provisions of the fugitive slave law. If he had been in Congress when it passed, he would not have voted for it, preferring the old law. It themselve there was no constitutional war. He thought there was no constitutional war-rant for one of its provisious, but there was higher authority than himself. When he was a member of Mr. Fillmore's cabinet he said the bill was constitutional, and hence he assented to the l'resident's approval it. He said he had doubts ou the constitutionwhich authorizes the court to appoint the com nissioner, and regretted they were not to b uppointed by the President, by and with the dvice of the Senate. Owing to their judicial functions, the old men who framed the Constintion determined that our rights should no est on tradition, like those of the British, bu hey wrote and printed our Coustitution so at there might be no mistake about it. Wer here no fugitive slave law, a Southern ma could go into the free States with the Const ution in his hand and reclaim the fugitive, be cause the Constitution gave him the right, and said the person owing labor or service shall be lelivered up. The framers of the Constitu-

ion put this construction upon it, and, there-ore, he adhered to this view of the subject. Messrs. Parter, Elliot and Dawes controvert ad the position of Mr. Corwin, who, in his renarks, kept the Committee in remarkable good numor. When his hour expired, there was a general acquiesence that he should continue is speech.
Mr. Curtis desired to know how much tim e wanted.

Mr. Corwin thought he would get through

before the convention did. [Laughter.] If made some good natured his at the South, which were all received in a similar spirit. He aid, among other things, that some would dis olve the Union because their negroes ran so ast that they could not catch them, but they reght to recollect that the slaves have to run brough Slave before reaching the Free State Why not kill the negroes South for not catching he fugitives. [Laughter.] John Brown go up a scheme in (hatham to operate in Virginia contrary to our laws. Why not call upon th British government to deliver up those en aged in that transaction" If there was no of eason why this was not done, it was becar reat Britain wants our cotton and we don Great Britain wants our cotton and we don't lesire to go to war with her. [Laughter.] It would not be long before Massachusetts, following the example of Indiana, would pass a law prohibiting free negroes coming thither, and so it would be with other free States when they found that they were going to have a negro pauper population. The Republican party has not opposed to the recovery of fugitive negroes. There was not one in a hundred thousand who would nudertake to repeal they and substitute State legislation. thodsand who would hauerigke to repeal the present law and substitute State legislation. Everybody knows that we would not be in our present position, if it had not been for the repeal of the Missouri Compromise.

Mr. Corwin's speech was generally moderate and conciliatory. The Committee then rose, and the House adjourned.

From Washington.

thef was entertained that the Louisiana reso-lutions, which covered Congressional protec-tion to slavery in the Territories, could be car-ried, from the complexion of the Committee, Northern members being willing to yield the principle for the candidate. The Douglas men claim an accession of more than 29 votes, by the rule allowing delegates to vote indi-vidually, in delegations which have not been instructed to vote as a unit. He will gain s or 10 in Pennsylvania, and if New York should unite as expected, he would have more than a roundly, in delegations which have not been netructed to vote as a unit. MADAME CAPRAUL'S PEMALE MONTE

You will find a great variety of fine Watches, Clocks, Jewelry. Silver Ware, Spectacles and everything in the jewelry line at P. W. Ramsey's, on Third street, where you can get a bargain, if you will call.

"How Shall WE DRESS"-AN IMPORTANT QUESTION .- A fashionable woman's first question, on almost every subject, is invariably, "How shall we dress?" And in solving that very important problem every other point is at once and entirely lost sight of. Like the masculine "What shall we take," it is the alpha and omega of every conversation. Then, as this subject of dress has absorbed so much of the attention of our people, it is important to know where a gentleman can get an outfit that will give him character as a man of taste. J. M. Armstrong, on Main street, opposite the National, is recognized as the best authority for styles in this city. His stock of men's, youth's, and children's clothing, for the present season, is unusually handsome. Call and see him.

DOORS, SANH, BLINDS, BOXES, LUMBER AND SHINGLES .- Messrs. Breeden & Bradley have on hand a large lot of doors, sash, blinds, boxes, &c., at their warerooms, on First street, between Main and the river, and they are prepared to execute all orders for woodwork necessary for the inside finish S. S. MARK. of frame or brick houses of every description, as heretofore. They invite special attention to the large stock of well-seasoned pine lumber and shingles at their yard on Walnut street, between East and Floyd. They furnish bills of prices on application, and solicit orders in their line.

A a time when there is great fear that the stock of dry lumber, sash, doors, blinds &c., will fall short, owing to the vast amount of improvements in Louisville, it will be interesting to the public to know that Alexander, Ellis & Co., have enlarged their factory and have now on hand several million | And ev of dry lumber. Call at their office on Main street, nearly opposite the Galt House, or at their factory on Fulton, above Preston street.

TRUNKS .- Among the places worthy of the attention of the visitors to Louisville at the present time, is the great trunk manufactory and emporium of J. H. McCleary, on the northeast corner of Fourth and M in streets. His large manufactory enables him to supply trunks, valises, bonnet and hat boxes, ply trunks, values, bonnet and hat boxes, carpet bags, bureau trunks, etc., of the very best quality, at unprecedented low prices.

All of Mr. McCleary's work is beautiful as well as durable goods. Give him a call.

Look to Your Intere ts. The people are aware that D. O'Hare, No. 427 Main street, is the oldest, largest and most experienced manufacturer of trunks and similar articles in the city. They should afforded by Mr. O'Hare. To country and city mershants he offers peculiar advantages in his wholesale department, while in the retail line be cannot be equaled. Who ever wants to travel, whether with a small carpet-bag or a mammoth trunk, need go no further than to the Great Western Trunk

Factory of Mr. O'Hare.

His manufactory is a credit t Louisville, and should meet with extensive patronage. Hundreds of workmen are employed, and thousands of dollars weekly dis ursed. As a matter of thome pride, and to subserve economy, purchasers will consult their best economy, purchasers will consultheir best interests in purchasing of Mr. O ilare.

FIRE FURNITURE.-Wharton & Bennett keep constantly on hand a large stock of desirable parlor, office and chamber furniture, of all kinds and patterns which they sell at their wareroom at the lowest prices. Their store is Nos. 5/2 and 504 Market street, between Second and Third.

Hoor SKIRTS .- John M. Robinson & Co. are now manufacturing a large slock for the Spring trade. Their Skirts here attained great popularity, as they use only the very best tempered watch spring steel, and each hoop is fastened to the tapes by means of a weren loop instead of the ordinary clasp. Thus effectually preventing the annoyance of the tapes being constantly cut. Their akirts can be had at all the retail houses throughout he South and West. Sold only at wholesale.

J. N. Collins sells the best of coal a his office, Third street, between Market and Jeffer son. Give him your orders. dif The following, from Mesers. Gage

& Mather, prominent Druggis s of Sparta, gives further evidence of the great popularity of our Medicine: SPARTA, Monroe County, W .. July 7, 1859

Messrs. J. N. HARRIN & Co .- Gentlemen It is with pleasure that we speak a word in ommendation of your very valuable med cines, "Perry Davis Pain Killer," and "Dr. Richardson's Sherry Wine Bitters." They are of great mer't, and already too well known to the public at large to need any very special notice from particular individuals. The Pain Killer has become a household remedy throughout the West, and the Sherry Wine Bitters are superior to any hitters we have ever met with, and as they he-come known the demand increases, and all find from their use satisfactory results.

Most respect ty.

HOME TESTIMONY DR. C. W. ROBACK, M. D. . Ang. 30, 59. Dear Sir: For the past several months I have been laboring under great weakness and general debility, much of the time confined to my bed, and from which I received EAML H. BAKER no benefit from my physician. After using come of your blood pills and blood purifier, purchased of your agent, Mr. Wm. H. H. Plummer, I feel as a new person, almost entirely free from disease, and would recommend your medicines.
of so invaluable remedies.
lours, uro v.
MARY Y. ROFFMAN. mend your medicines to all who are in need

McLean's STRENGTHENING CORDIAL -This invaluable compound, we are glad to knew, has become the most popular remedy in the United States Nearly every family keeps it on hand. They find it saves physicians' bills. A small quantity given in season will ward off Fevers, or any prevalent disease. See the advertisement in another apr3d&wlm

Good .- A lunatic once informed a physicianwho was classifying cases of insanity, that he lost his wits by watching a politician, whose course was so crooked that it turned his brain. If, on the contrary, he had been watching the effects of Heimstreet's Hair Restorative, he would have saved his wits and learned a curious triumph of Art over Nature. See advertise-ment fel8d&w3m.
